

Over the last several months I have been recording with a fiddler and multi-instrumentalist, Kyle Felhaver, and have put together a great collection of Irish and East Coast songs and tunes. It was fun for both of us and like many projects it took some interesting turns, especially when you are engineering the whole recording from start to finish. We are now gearing up for the CD Release on March 16th at Greenfield's Pub in Ottawa. It will be a fun night with lots of music and unique characters throughout the evening.
